

SEEKS A BUILDING

Pure Food Co. May Establish
a Factory Here.

YOUNG MR. STODDARD HERE

Looking at Several Structures
That are Offered.

Wichita may have a pure food factory soon. The Pure Food company of 15-17 Clinton street, Newark, New Jersey, is a prominent corporation which manufactures and places on the market certain high-grade foods.

Recently the Eagle received from this company a want advertisement for a building near a railroad, suitable for a factory. This was immediately answered and last evening Mr. W. O. Stoddard, Jr., representing the Pure Food company, reached Wichita. He will remain in the city today, possibly over Monday.

He will look into the several buildings offered, and if he can find one suitable, the Pure Food company will probably purchase it at once and begin the manufacture of one of its products immediately.

Mr. Stoddard, who is by the way the son of the author of the familiar boy stories, is a bright-eyed, keen-minded young gentleman who has never been west before and he is enjoying the breeziness of the section immensely. He has been to Des Moines, Omaha, Lincoln, Waterloo, Topeka and many other places.

After an Eagle representative had dwelt at length on the superiority of Wichita, the young man laughed and said:

"How every western man stands up for his town. It is wonderful. Everybody believes that his town is the best town. When you come into a town, the Commercial club or the Board of Trade takes you in hand and helps you along."

Mr. Stoddard said that the company desires a factory out in this section somewhere. They want quite a large building, three or four stories high, a short distance out of town the better, on the score of cleanliness and a siding.

"We would build," Mr. Stoddard said, "but that would lose us a season and we cannot afford that. We wish to begin work at once."

Mr. Stoddard was acquainted with Wichita's superior location and its railroad facilities. He was introduced to President Cohn of the Commercial club and inquiring about the production of eggs in this section was assured by Mr. Cohn that this as an egg country is second to none.

Mr. Stoddard explained that one of the company's products is "egg-fake." The water is extracted from the egg and turned into a protoplasmic yellow meal, in which all the nutritious qualities of the egg are retained and at the same time the product is perfectly pure and renders it fresh and palatable in any climate.

This is the product which, if the company should decide on Wichita, would be manufactured here. The egg market here, of course, could easily supply the company's demands.

Mr. Stoddard is stopping at the Carey hotel. From Wichita he will go to Fort Scott, Springfield, Missouri, and then home.

An Important Difference

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a positive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. only, and sold by all druggists.

FORMERLY OF WICHITA

William Devere, Comedian in Hoyt's Black Sheep.

In the Hoyt's "Black Sheep" company, which is spending Sunday in Wichita and who play here Monday night, is Mr. William Devere, now a star actor in the theatrical profession. Mr. Devere is another formerly of Wichita man, and is

The German Emperor

Uses

Grape-Nuts.

Kaiser Wilhelm Furnished with American Food.

Upon instructions of a German physician, a case of Grape-Nuts Food was lately sent by express to the German Emperor, Kaiser Wilhelm, at Berlin. This food has come into recognition by physicians as perhaps the most perfect form of nourishment in use.

The field grains, barley and wheat, are blended in proper proportions, ground and passed through some ten or twelve different operations, during which the starch of the grains is turned into grape sugar. The food is in shape of small granules, perhaps twice the size of a pin head. These are little and covered with glaucous crystals of grape sugar which has been produced by the processes and ferment on the surface of each small granule. It is much as the sugar itself and is digestible at the end of a flicker or maple leaf, under certain conditions.

This product has a delicate, sweet taste, not the strong sweet of cane or beet sugar, but the delicate sweet of grape sugar, and it is the most easily digested food known. It is particularly applicable to digestion in the troubled tract where so much trouble is nowdays shown from the excessive use of starchy foods.

Most so-called health foods are inclined to be flat and disagreeable to the taste to be used under a sense of duty. Grape-Nuts, on the contrary, is not only the highest known form of health food, but is palatable and delicious. It is thoroughly cooked before leaving the factory and can be served instantly, either cold with a little rich cream or made into a hot dish by pouring some hot milk or cream over it. Grape-Nuts are also used for baby foods, treated with gelatin, or fruit juices.

All first-class grocers sell Grape-Nuts. Made at Postum-Cereal Co's factories in Battle Creek, Mich.

"To Do Ill Costs More Than To Do Well."

This might properly read, "It costs more to BE ill than to BE well." The source of all health is rich, strong blood. It is to the body what the mighty streams are to the earth. If the blood is pure, the body thrives; if the blood is weak or impoverished, then every pulse-beat carries weakness instead of strength. The only perfect blood purifier and vigor-maker in existence is the world-famed Hood's Sarsaparilla. It brings good, perfect health.

Catarh and Deafness—"I am 65 years old and suffering from catarh for many years, becoming quite deaf. I took nine bottles of Hood's Sarsaparilla to effectually cure me. I can hear quite well now." John K. Houk, Hamilton, Montana.

Rheumatism—"I was worn out with rheumatism, but took Hood's Sarsaparilla and I now have a good appetite and am as well as any woman." Mrs. H. H. Gray, Emporia, Kan.

Hood's Sarsaparilla
Never Disappoints

Hood's Pills cure liver bile; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

one of those who in pioneer days lived in Wichita when the town was the center of the Texas trail. In 1872 he ran a variety theater with a little on North Main street, near where the Kansas news stand now is. Mr. Devere has a great attachment for the city and while talking to an Eagle representative last night inquired for some of his old friends of those days. Mike Maher was marshal of the town at that time and Rowley and Big Red kept the dance hall across the river. Mr. Devere says it was the liveliest place he was ever in. From here he went east, gradually rose in the profession until he is now with Charles Hoyt's own company as the leading comedian. He does the part of the editor in "The Black Sheep."

WHO SHOT IT?

BULLET IN GORATH'S BRAIN DOESN'T MEASURE RIGHT.

Colwich Murder Case Has Some Mysteries—Ollie Bell's Testimony.

The trial of A. H. Hatfield, charged as principal in the murder of John Gorath, near Colwich last August, was commenced in the district court yesterday, and Judge Dale pushed the business of the court by excellent and punctual methods. It is a very dull murder case, however, for there seems to be little sentiment in it and very little interest manifested by the public. The case will probably go to the jury Monday. The state rested its case yesterday afternoon and the defense got pretty well through with its testimony. About all of the testimony of the state was gone over in the preliminary trial last summer, when it was thought the evidence was pretty strong against Hatfield. Young Luther Bell, who was first arrested with the gang of throbbers, but was afterwards released, is the state's principal witness. He tells a straightforward and pretty story on the witness stand, and his youthful innocence seems to make a good impression on the jury, and in favor of the state.

Elmer Allenworth, another boy, who rode out with the throbber gang from Colwich, told a good story also, but it did not bear on the case with as much force as that of Bell's.

The question of where the bullet came from that was found in Gorath's head, is still a matter of much speculation and will be a hard point to get around. Hatfield's revolver was a 32-calibre, and the only other revolver in the crowd the night of the murder was that of Luther Bell, which he had purchased that night at Colwich, and was a 32-calibre. The lead that was taken from Gorath's head weighed 120 grains, and the weight of a 32-calibre bullet is 165 grains. The point to be proved is, what became of the rest of the bullet if the lead in Gorath's head came from Hatfield's gun. Along this line of testimony the defense introduced Policeman Ollie Bell, whose testimony tended to show that the revolver of Luther Bell's had been fired. Luther Bell denied that it had ever been fired, and Tom Voss testified that he thought it had never been fired. Ollie Bell was pretty positive that the revolver had been shot off two times and afterwards cleaned. The trial will be resumed Monday morning at 9 o'clock sharp.

FLIRTED WITH OTHER MEN

H. B. Bowman Says His Wife Is Bad and Wants a Divorce.

H. B. Bowman has sued his wife, Anna Bowman, for divorce, the petition having been filed in the district court yesterday by Amilton & Conley. The couple commenced to live together in this city in December, 1893, and have two children as a result of the union. Mr. Bowman claims in the petition that his wife consistently complained of his manner and means of support, and she finally got to flirting with other men. She is also accused of adultery. Besides these, Mrs. Bowman has refused to care for her children, and last September her husband, who is a traveling salesman, well advanced in years and desires to start even again.

WANTS TO START AGAIN

H. Barnett Files Petition in Bankruptcy—Liabilities \$11,000.

H. Barnett yesterday, by his attorneys, Adams & Adams, filed his petition in bankruptcy. His liabilities are \$11,000, all being old indebtedness, contracted years ago. He has no property for distribution among his creditors. Mr. Barnett is a traveling salesman, well advanced in years and desires to start even again.

The Wichita High School football team defeated the El Dorado team yesterday in the game played at that place by a score of 4 to 0.

MRS. LIZER INSANE

Has Delusion of Marvelous Hypnotic Power.

PLACED IN COUNTY JAIL

Mad and Helpless Mother of Four Children.

Edna Lizer is said to be insane and is now in the county jail. She has a delusion that she can hypnotize a whole community. She was at Alva and claims to have hypnotized custom to the merchants till there was left no merchandise in town to sell—the customers brought there by the spell bought all there was to buy. Her case is a deplorable one. Ten years ago she was married to James Pray of Butler county and on a farm in that county she lived with him, where were born to them four children, three boys and one girl, ranging in age from 8 years down to 2. According to her story she was divorced from her husband by the name of Edna Lizer, Kansas. Her husband then went to Britwood, Oklahoma, taking the children with him. She was in the Wichita hospital during the early fall, but a month or more ago she went to Alva, Oklahoma. Here she displayed her great hypnotic influence in bringing custom to the merchants of that town. This was finally declared by the authorities of Alva to be a nuisance and she was sent back to Wichita. When she reached the city she immediately decided to be a stenographer and typewriter and with this view entered the Wichita Commercial college one day last week. Her mother, Mrs. Edna Lizer, and the teachers did not know what to make of her. (She paid a part of her tuition and said she would have to find a place to work for her board. She put in two days at Mrs. Cooke, 131 North Topeka avenue and about the same time at the City hotel. Her weird eyes startled every one who knew her and at the same time each hesitated to say she was insane.)

Yesterday morning the City hotel people reported her to Sheriff Simmons. He took her to jail and there she now is. When an Eagle representative called to see her at her cell, she came out but the tragic air of an actress, whose special part was to play the role of the insane. Much of her conversation was perfectly rational and yet there was a lack of sentiment in keeping with the occasion. She expressed a desire to go to her children, whom she has not seen nor heard of in four months, yet there was no emotion, no anxiety. She has no idea of the cause of her confinement in jail, nor any conception of the when or how she is to get out. She has no complaint of any one and says the jail is not so bad a place if only it was provided with clean beds.

Her parents went back to Kentucky some time ago and probably have no knowledge of her present condition. Dr. Hoffman was asked about her mental condition. He treated her while at the hospital. He had no hesitation in saying she was insane. He has no opinion to offer as to the nature of her mental madness, nor whether curable or incurable.

Mrs. Lizer appears to be harmless. There was no tendency to violent language. No threats to injure anyone. Thus harmless, helpless, maybe but this woman, this mother, 25 years of age, occupies a cell in the county jail designed for felons and the shame of it does not reach her brain, her emotions. She is a good looking woman, but nature has written her malady in those strange eyes. She is a good looking woman, but nature has written in those and wild features a story that may not be understood and whose awfulness startles and horrifies the beholder.

HALF-BAKED HOODOOS

Kansas City Papers Fail to Mislead the People Longer.

The attempted hoodoo of the Kansas City papers to palm off on the people of Southern Kansas and Oklahoma their papers as Associated Press morning news has become so apparent that no one will be misled any longer. Any one doubting the above statement need only take the paper which they send down in this country and compare it with one of their regular morning editions. More than all that, the worst hoodoo, the fact that the southern Kansas and Oklahoma matter which they publish in their mid-night editions of a few dozen papers is not published in their regular morning editions. Occasionally once in a while the readers of their regular editions will discover an item that would indicate that there was a country somewhere by the name of Oklahoma, but it is unintentional upon the part of the paper.

W. B. Adamson of Valley Center was in the city yesterday.

THE SURGEON'S KNIFE.

A Better Way Now Discovered Which Cures Every Form of Piles Without Pain or Inconvenience.

Many persons suffer the pain, annoyance and often serious results from piles, for years, and after trying the many lotions, salves, ointments and so-called cures without cure or relief, give up the hope of a final cure, rather than submit to the intense pain and danger of life which a surgical operation involves.

Happily all this suffering is no longer necessary, since the discovery of the Pyramid Pile Cure, a remedy which is approved by the medical profession, as being absolutely safe, free from any trace of opium, mercury or mineral poisons, and which may be depended upon as a certain cure (not merely relief) in any form of piles, whether itching, blind, bleeding or protruding. Some of the hundreds of cures recently made are little short of marvelous, as a perusal of the following will demonstrate:

Dr. J. W. Morgan, Leonardville, Kan.: "I have used a box of Pyramid Pile Cure and received more benefit and relief than from any remedy I had used in the past twenty-two years."

James J. Hinkley, Dubuque, Iowa, says: "I suffered from piles for six years; have just used the Pyramid Pile Cure and am a well man."

Mrs. M. C. Hinkley, El Paso, Tex.: "I have been a sufferer from the pain and annoyance of piles for fifteen years. The Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

The Pyramid Pile Cure may be found at druggists at 25 cents per package. Send for book on cause and cure of piles will be sent by mail, by addressing the Pyramid Drug Co., Marshall, Mich.

AT Cash Henderson's

The Big Store is always right with the lowest prices and correct styles. In ordinary business we always give our customers the best values for their money, and this week we propose to outdo all former efforts and give the people a benefit that will be long remembered.

Our popular *Peau de Soie* will go on sale Monday, reduced to \$1.50, \$1.25 and 99c.
